

## Features:

Vosonic VP8870 is a powerful multimedia storage viewer with 4.3-inch color TFT LCD and high resolution of 800x480 pixels. To upgrade this compact viewer, Vosonic Technology enhances VP8870 with AV OUT function. It is easy to share favorite videos/images with your family through attached remote control.

## Overview of Panels &amp; Keys

**AV OUT**

Not only personal movie theater to view the movies anytime and anywhere, VP8870 AV out function even let you connect the device to TV and share the movie and photo on TV with your friends.

- Play Motion: JPEG in AVI and MOV, MPEG-1, MPEG-2, MPEG-4 and Xvid file format.
- Quickly fast forward, rewind and pause when watching your video.

### Detachable 2.5" SATA hard drive

VP8870 provides infinite storage expansion via a customer swappable internal 2.5" hard drive (SATA Interface, 40~500GB). You can save all your personal data: music, photos, videos and documents in this super portable storage device.

### Multi-cards Reader/Writer

VP8870 supports all memory cards such as Compact Flash, Memory Stick, Memory Stick Pro, Secure Digital, MultiMediaCard and 4 other formats, Mini-SD, RS-MMC, MS Duo and MS Pro Duo with a adapter (not supplied). It uses fast USB 2.0 interface for file transfer to your PC. Connecting the VP8870 to your PC, it works as external hard drive enclosure and multi card reader/writer.

### High speed data back up from memory cards

VP8870 supports to copy files from memory cards to the internal hard drive directly (No need PC). You can backup your pictures on the memory cards anytime, anywhere during your trip. The transfer rate from 1GB CF card (with support of the Ultra DMA protocol) to HDD can be up to 10MB/sec.

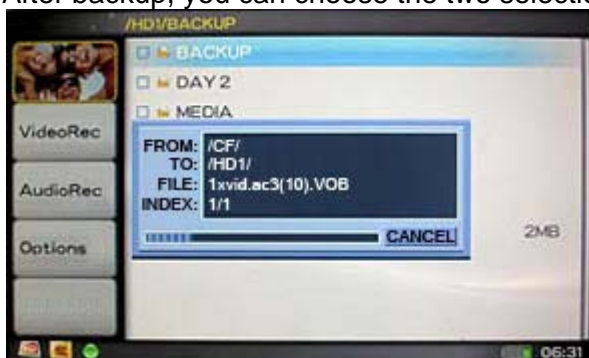

### Reliable data backup from memory cards

There are two types of data backup for your selection.

- **Full Backup:** You can backup the whole folder (including it's subfolder and files) from memory card(s) to internal storage (Hard Drive).
- **Photo Backup:** The Photo Backup allows you to quickly search the digital images by saving the subfolder only.\* Please make sure that you have DCIM (Digital Camera Image) folder on your memory card.

After backup, you can choose the two selections for the next step.

- **Compare:** The verify function allows you double check if the copied files are exactly corresponding with the flash memory card.
- **View:** Allows you to quickly view the copied files.

### A speedy RAW image viewer

To cater to the high needs of professional photographers, VP8870 not only supports to display photo files in JPEG but also RAW formats. With VP8870's powerful data management system and CPU, photographers can view their RAW photos on VP8870 quickly and directly without installing any software. ( see specification for the supported models )

### Function-rich photo display

- Zoom In/Zoom Out
- Options for you to rotate picture 90 Deg CW and CCW (CW: clock-wise, CCW: counter-clockwise)
- EXIF and histogram data display
- Slide show function

### Video Player

VP8870 supports video playback function. Save the video files and then you can view the movies anytime and anywhere.

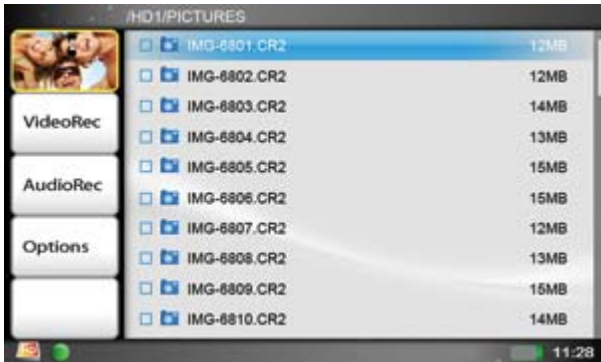

- Play Motion-JPEG in AVI and MOV, MPEG-1, MPEG-2, MPEG-4 and Xvid file format.
- Quickly fast forward, rewind and pause when watching your video.

### Audio Player

VP8870 let you access your music library on the go. The shuffle, repeat and EQ functions are available. Set Music as "play in background", you can view the pictures and enjoy music at the same time.

- Play MP3, WMA, WAV, AAC, OGG music files.
- ID3 tag support
- 7 bands mode EQ system (Normal, Bass, Classic, Dance, Live, Rock and Treble)
- Shuffle play from a designated playlist
- Support M3U playlist

### Photo Viewer

VP8870 works as photo album with huge memory. The zoom in/out, rotate and slide show functions make the photo display more interesting. RAW support and EXIF and histogram data display is useful for professional photographer.

- Play JPEG, TIFF, BMP, GIF and RAW file format
- Support slide show with music playback
- Support Zoom in/out, rotate by 90 degree
- Support EXIF data to display the shutter speed, flash condition, focal length, and other image information

### Voice Recorder

VP8870 allows you record the audio from line-in or internal microphone. You can record lectures in classrooms or record music from other audio players.

- Recording in AAC format

### Video Recorder

No need to use the traditional bulk video recorder at home anymore. The small VP8860 builds in video recording function. You can record the video from TV, DVD or satellite receiver.

- Recording resolution: Up to 720X480 D1 ,30fps, format: MPEG4, Sound: AAC

#### Direct view support from other devices

Direct record and view your photos / videos from other device.

#### With built-in USB Host port to connect other USB devices

Note: The VP8870 USB Host function only works with USB 2.0 Flash Drive now.

No PC necessary , USB Host function allows you to transfer the files directly from USB Flash Drive to VP8870.

#### Direct printing support

VP8870 has Direct printing function (PictBridge Compliant). You can connect it to printer to print out your pictures without PC.

#### Easy to replace the Li-ion battery (NP-100 Compatible)

VP8870 is compatible with rechargeable battery model: NP-100 (2500mA) which can be easily got an extra one
